

# HANDS ON TASKS: NEW INTERFACE

Your task is to build a website that is as close to finished as possible within the next hour. While you build the website in the new interface, don't forget to complete the following tasks:

- Create a new page where you do the following:
- Add a new row and adapt it to the page
- Replace the footer
- Add animations on the page
- Change overall visual identity of the site
- Let loose and sharpen your site

## Brief: Your SMB customer

**Industry:** Hairdresser

**Business owner:** Natalie Mayer

**Business name:** Salon Hair2Care

**Address:** Leonhardtstraße 12, 30175 Hannover, Germany

**Phone #:** +49 157 77930201

### Company description:

Hair2Care is not an ordinary hair salon. Since opening in 2005, we have done things differently. We are not only focused on giving you beautiful and healthy hair, but have a strong focus on using beauty products that are good for you, your health and the environment and health.

### Their story:

Natalie Mayer (36) opened the organic salon Hair2Care back in 2005. She used to work at another hair salon, but decided to open her own with a focus on better quality products. Natalie is the owner of the salon, as well as the hairdresser for women. She has 2 other employees who also cut hair at her salon. The two employees, Hans and Christian, also use organic products - but specialize in men's and children's haircuts, respectively.

As the business owner, Natalie is in charge of managing the digital presence (website, facebook and instagram) of the Hair2Care. She knows how to do simple updates, but struggles with the time and knowledge for making bigger updates.

Natalie wants a beautiful website that represents her passion for organic hair care for women, men and children.
