

# Introducing the market's most efficient interface

The Mono Editor has been enhanced with a new interface that is faster, more efficient and easier than ever to work with.

BASED ON A ONE-TO-ONE  
INTERFACE COMPARISON,  
SITE PRODUCTION SPEED  
CAN BE EXPECTED TO  
IMPROVE BY MORE THAN  
**100%**

## WORKFLOW EFFICIENCY

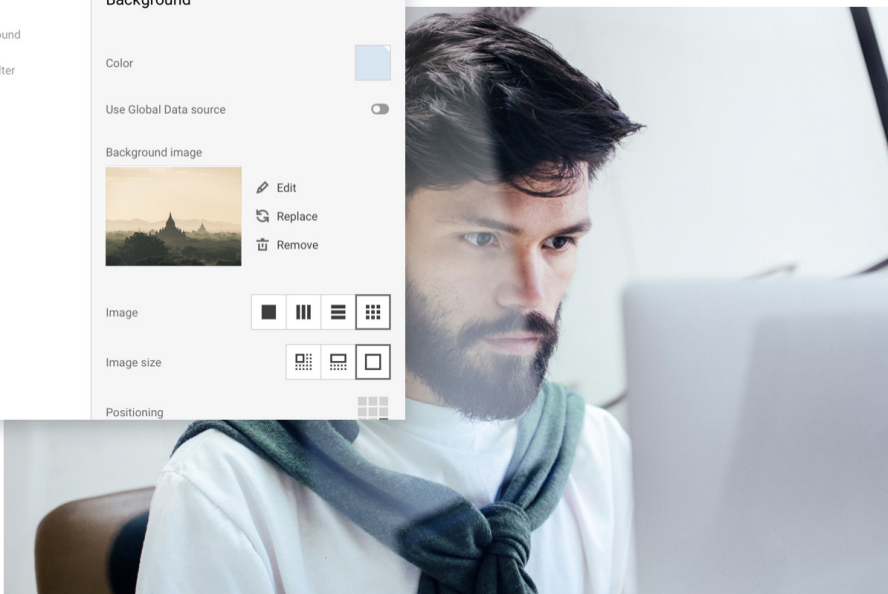

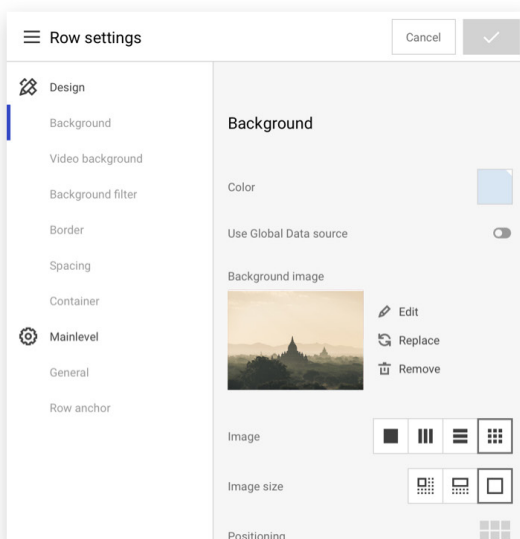

The new interface is built with workflow efficiency in mind. It requires fewer scrolls and clicks, has a more intuitive structure, and includes many improvements suggested by YOU, our super users, and our UX experts. A range of new features are also included that will improve production speed and increase the joy of using the Mono Platform.

## WHAT'S NEW

- ▶ Libraries with predefined rows and pages
- ▶ Keyboard shortcuts
- ▶ Code-free animations
- ▶ Customizable Business Dashboard with key performance statistics
- ▶ Interface is adaptable to different user skills and roles
- ▶ User-friendly in-platform communication
- ▶ Access to a brand new Mono Academy knowledge base

## WHAT'S BEEN UPDATED

- ▶ Full screen display (Goodbye sidebar)
- ▶ Click-to-insert (No drag'n drop insertion)
- ▶ Global Styling is now called Global Design
- ▶ Global Design directly accessible from modules
- ▶ Edit site content and design in one view (no more switching between build mode and Global Design)
- ▶ More intuitive feature grouping
- ▶ Improved use of typography (better fonts, sizes and placement)

## KEYBOARD SHORTCUTS

# BUILD EVEN FASTER
