

# Mono Editor tasks

These tasks are created to give you a hands-on feeling of the Editor and how to build sites for SMBs. It's recommended that you create a trial site in which you complete the tasks.

## Tasks in Mono Editor

- Update business information
- Change overall visual identity of the site
- Create a new page where you do the following:
  - Add a new row with a call-to-action
  - Replace the footer
  - Add animations on the page
  - Let loose and sharpen your site

## Background story:

Natalie Mayer (36) opened the organic salon Hair2Care in 2005. After working at other hair salons, she decided to open her own with a focus on quality hair care products. Natalie is the owner of the salon, one of the hair dressers, and also is in charge of managing the company's digital presence. She knows how to do simple updates to the website and social media channels, but struggles with bigger, more complex updates. Natalie wants a beautiful website that represents her passion for organic hair care.

## Company information:

**Industry:** Hairdresser

**Business owner:** Natalie Mayer

**Business name:** Salon Hair2Care

**Address:** Amagerfaelledvej 106, 2300 Copenhagen S, DK

**Phone #:** +45 11223145

## Company description:

Hair2Care is not an ordinary hair salon. Since opening in 2005, we have done things differently. We are not only focused on giving you beautiful and healthy hair, but have a strong focus on using beauty products that are good for you, your health and the environment.
